MAGNUM VACUUM TANK

The workhorse of the industry

MAGNUM VACUUM TANK WITH BOOM

The Magnum Vacuum Manure Tank is the workhorse of the industry. With it's solid undercarriage, 1/4" tank, long tongue for better handling and visibility, and heaviest axles and spindles on the market, it's ideal for today's larger farms

CONTROL & BALANCE

Long tongue for better weight control and balance. Now comes standard with a power pin hitch.

OPTIONAL FENDERS

Full fenders with LED lights provide excellent visibility at night.

VACUUM AIR SYSTEM

The system has balanced air traps for fast pumping, a vacuum pressure gauge, and is protected by a two-stage trap system.

AVAILABLE CAPACITIES

Available in 600 - 8,500 US GAL Capacities. Injector & top load configurations available.

MAGNUM VACUUM TANK

The workhorse of the industry

THE TANK

The ¼" tank with unibody construction, solid welds inside and out, and full circle tensioned baffles are what makes Nuhn tanks unbeatable. The Magnum Vacuum Tank comes standard with a full light kit and a large clean-out door at the rear of the tank. Nuhn tanks have the strongest undercarriage in the industry, full length frame with cross members, in-tank spray wash system, and bearing positioned away from direct contact with manure.

MAGNUM VACUUM PUMP

The Magnum Series is a line of pumps that incorporates incredible performance with dependability, to produce unprecedented air evacuation. The Magnum Series allows for maximum air displacement with minimal restriction, which results in cooler operating temperatures in the harshest conditions. The uncomplicated design focuses on performance and strength, with no extra moving parts. The Magnum Series of pumps are strong and durable enough to be used in the most demanding applications.
